# Engage contacts at scale easily with Group Text 💼 👊

Whether you have a small or large contact list, our bulk SMS service can help you communicate effectively. Built on a platform trusted by businesses around the world, Group Text is the reliable tool that can take your customer experience to the next level. Group Text can scale to suit your requirements and be set up quickly.

User friendly portal
Group Text gives you access to a web portal, allows for REST API integrations, and offers an email-to-SMS service.

Scalable package options
As your business grows, Group Text can scale with it by allowing you to send large volumes of text messages quickly and with ease.

Cost Effective
Based on the average cost of 2-way messaging, setup and service fees, Group Text is one of the most cost-effective solutions.

Send more and spend less
With setup, management and reply messages bundled into a single service, Group Text is one of the most cost-effective solutions for mass communication.
